Figure 1 shows the chemical structures of five compounds, labeled 1 through 5. Each structure is a benzene ring with five chlorine atoms (Cl) and one iodine atom (I) attached. The positions of the chlorine and iodine atoms vary between the structures, representing different isomers of pentachloroiodobenzene.

Figure 1 illustrates the development of the human face from fetus to adult. The top row shows a fetus, a 1-year-old child, and a 5-year-old child. The middle row shows a 10-year-old child, a 15-year-old child, and a young adult. The bottom row shows an adult male, an adult female, and an elderly person. The drawings illustrate the progression of facial features, including the nose, mouth, and jawline, over time.
